

Bogard™ BALLISTIC SHIELD

Bogard™ Ballistic Shields are produced with lightweight ballistic panel, plastic ballistic view port, and unique mount-hole free handle. It is uniquely designed to provide maximum protection, comfortable handling, and optimum mobility, providing the tactical specialist with resistance to ballistic and fragmentation threats.

Bogard™ ballistic shield comes with several classes: Bogard-V is designed to defeat high power rifle attach, yet still sufficiently light to be held by one hand. Bogard-IIIA are designed to be comfortably handled, and with view port. Bogard-II-W is transparent.

Bogard™ can also come with various options and accessories, such as stunning lights, customized body sizes and window sizes, supporting wheels, transport bags, and etc.
